Why Choose Mitsubishi Electric?

As a leading company in the industry, Mitsubishi Electric has a proud history in the manufacturing and supply of leading edge electrical and electronic equipment for both domestic and commercial use. Our efforts to make indoor life more comfortable began in 1921, with the introduction of our first electric fan which became an instant hit. Some 10 years later we began to manufacture coolers, which were just as popular. Our commitment to quality service, research and development has helped us gain a leading position in today's marketplace in a wide variety of areas including heating, cooling and air conditioning. Mitsubishi Electric's 'today technology' provides climate controlled comfort wherever you live, work and relax. Whether it's consistent heating and cooling for the home or office, Mitsubishi Electric offers you state-of-the-art technology that is quiet, simple to use, reliable and above all, energy efficient.

New Technology

Mitsubishi Electric inverter technologies ensure superior performance including the optimum control of operation frequency. Optimum power is applied in all heating/ cooling ranges and maximum comfort is achieved while consuming minimal energy.

Quiet Operation

We recognise that noise affects comfort, so we constantly work to make our air conditioners as quiet as possible. With improvements to our fan blades combined with a new grille shape to our outdoor unit it's even quieter when in low noise mode. We want you to feel the warmth, not hear it.

Flexible Choice

Mitsubishi Electric Air conditioners from wall-mounted, floor standing, ceiling-concealed, ceiling-cassette to ceiling suspended units are suitable for any needs.

Ultimate Comfort & Modern Design

Mitsubishi Electric clean and attractive air conditioners in a variety of designs to suit diversified needs; with stylish lines for the living room and quiet operation for the bedroom, our air conditioners provide advanced air control, small, smart, sophisticated.

Energy Efficiency

We strive for the perfect balance of performance, reliability, low power consumption and a long operational life span for all our products. With the "iSee Sensor" sweeps from side-to-side automatically monitoring the floor temperature over a wide area spanning 150°. The airflow speed and temperature are adjusted to prevent over heating/cooling, thereby eliminating the consumption of excessive electricity.

Controls

HAND HELD CONTROLLERS & WALL MOUNTED CONTROLLERS

Making the most of your air conditioner all starts with the controls, these allow you to create the comfort levels that match your demands. As air conditioners are becoming more advanced, so are the controls, to allow accuracy and ease of use to maximise the functionality of your air conditioner. The availability of hand-held remotes, wired wall controllers and internet connectible controllers, not only provide you with a wide variety of choice, but also allow optimised programming efficiency.

24 HR Controller

This simple to use remote features a 24 hour timer, an easy to read display and variety of operating modes at the touch of a button. An On/Off timer allows users to set operating times on a daily basis. The 'i Save' mode recalls the present temperature. This remote is standard for the GE25/35/42/50 series.

Weekly Remote Controller

With an easy to read display and a variety of operating modes at the touch of a button. This controller features a weekly and 24hr timer, On/Off timer to set operating times on a daily basis. The 'i Save' mode recalls the preset temperature. This remote is standard for the GE60/71/80 Series.

PAR31-MAA 7 Day Controller

Perfect for anyone with a busy lifestyle the 7 day controller can program up to 8 settings for each day of the week. Easy to set desired temperatures and regulate energy usage without compromising comfort.

Introducing Wi-Fi Control for Split systems. Unlock the door to smarter heating and cooling, for total home comfort. This innovative technology connects your Mitsubishi Electric wall mounted air conditioner to your smartphone, tablet or online account, giving you the freedom to fully control each unit on-the-go via an internet connection from anywhere in the world.

Additional upgrade adapter MAC-558IF-E required

Develop Operating Rules

Tailor your system to always meet your needs. Unlock the full potential of your air-conditioner, program your system to automatically turn on/off at specific times, change settings, and develop temperature rules to ensure superior comfort day after day.

Control Multiple Units

Customise the settings of each air-conditioner in your home. Purchase multiple adaptors to manage all air-conditioners independently on the same account to ensure complete control over your system. The result is a tailored system to your needs.

Wi-Fi Features

- » View & control from anywhere in the world
- » Enhance energy savings
- » Set up 7 day weekly schedule
- » Wireless connection using WPS

GE Series

The MSZ-GE units provide excellent energy-savings and operation is impressively silent. A vast series line-up is ready to ensure comfortable room environments in response to your air conditioning needs.

Stylish and Compact

An elegant, high quality look is achieved through the stylish design adopted for indoor units. The simple, pure white colour express a sense of sophistication that matches well with virtually any interior décor.

i-Save mode

"i-Save" is a simplified setting function that recalls the preferred (preset) temperature by pressing a single button on the remote controller. Press the same button twice to immediately return to the previous temperature setting. Using this function contributes to energy savings when, for example, leaving the room or going to bed.

Wide and Long Airflow

The wide and long airflow modes allow the airflow direction to be adjusted, ensuring every corner of the room is comfortable. These modes are simply activated at the touch of a button on your remote controller. The long mode extends airflow by 12m to reach even the furthest point of large living rooms or enables kitchens to be reached in an open plan environment.

Product Line-Up

MSZ-FH Series

2.5kW	3.5kW	5.0kW
√	√	√

- » Double Vane
- » 24 Hour Timer
- » Natural Flow
- » Quiet Operation
- » Plasma Filter
- » 3D i-See Sensor
- » Anti-Mould Filter
- » Quick Clean
- » Weekly Timer
- » Auto Change Over
- » Wi-Fi Connectable*
- » Heating & Cooling

MSZ-EF Series

2.5kW	3.5kW	4.2kW	5.0kW
√	√	√	√

- » 24-hour Timer
- » Auto Change Over
- » 3 Colours available white, silver & black
- » Nano Platinum Filter
- » Weekly Timer
- » Wi-Fi Connectable*
- » Beveled Flat Panel
- » Quiet Operation
- » Heating & Cooling

MSZ-GE Series

2.5kW	3.5kW	4.2kW	4.8kW	6.0kW	7.1kW	7.8kW
√	√	√	√	√	√	√

- » Potentially Demand Response Capable ≠ (2.5kW-7.8kW)
- » Heat Pump
- » Quiet Operation
- » Quick Clean
- » Nano Platinum Filter (60/71/80)
- » Catechin Filter
- » Wi-Fi Connectable*
- » Electrostatic Anti-allergy Enzyme Filter (60/71/80)
- » Weekly Timer (60/71/80)
- » 24-hour Timer
- » Auto Change Over
- » Wide & Long Airflow
- » Powerful Mode (60/71/80)

Features

Wi-Fi Wi-Fi Connectable
CONTROL additional adapter MAC-558IF-E required.

- » Potentially Demand Response Capable
- » Econo Cool
- » Nano Platinum
- » Electrostatic Anti-Allergy
- » Auto Vane
- » Vertical Swing
- » Horizontal Swing
- » Wide, Long & Powerful
- » Pure White
- » Auto Change Over
- » Auto Restart
- » Optional Weekly Timer
- » Only 19dB (models 22/25/35)
- » 24 Hour Timer
- » Weekly Timer 60/70/80
- » Self Diagnosis
- » Operating Temperature Cooling at 46°C ~ -10°C Heating at -15°C ~ 24°C

≠ DRC-101A Interface required
* additional adapter MAC-558IF-E required

FH Series

The new FH series is the culmination of our air-cleaning, motion-sensor and airflow technologies, and represent our efforts to create an air conditioner that put No.1 Priority on healthy living.

EF Series

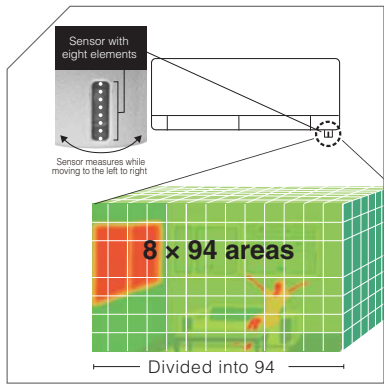

The Streamlined wall-mounted indoor units have eloquent beveled edges, expressing sophistication and quality. Available in 3 stylish colours classic white, matte silver and glossy black to provide the best match scenario for diverse interior designs while simultaneously ensuring maximum room and energy savings.

Plasma Filter
Besides a pre-filter, the unit is also mounted with two plasma air purifying functions. These functions are engineered to zap air dirt particles from micron to nano-size in scale.

Quiet Operation
We recognise that noise affects comfort, so we constantly work to make our air conditioners as quiet as possible. With improvements to our fan blades combined with a new grille shape to our outdoor unit it's even quieter when in low noise mode. We want you to feel the warmth, not hear it.

3D i-See Sensor
The FH Series is equipped with 3D i-see Sensor, an infrared-ray sensor that measures the temperature at distant positions. While moving to the left and right, eight vertically arranged sensor elements analyze the room temperature in three dimensions.

Stylish Design
Developed to complement modern interior room decor, MSZ-E Series is available in three colours glossy black, matte silver and classic white. Specially chosen to blend in naturally wherever installed.

Platinum Filter
The Nano Platinum Deodorising Filter reduces airborne bacteria while improving air quality. The optional Electro Static Anti-Allergy Enzyme Filter effectively combats common allergens.

Energy Efficient
Impressively low power consumption and quiet yet powerful performance. Ensuring maximum room and energy savings, thereby eliminating the consumption of excessive electricity.

Features
